Yes, I think it would be important - and would be nice to have in the event we get questions. That way we don't have to scramble to revise it and get it vetted. I can think of the air issues that need to be added. Do you want to talk to Teena? Do you want to include me in that conversation? Or should we just run with it?

Subject: Update for Donlin?

Hi Mark,

What do you think about revising this to fit Donlin? Would be nice to have something to point to or share with tribes if they ask. Would need to add the PSD piece, haven't really thought about what other pieces yet. I don't think there would be any site specific criteria issues under APDES/NPDES so we would need to take that out. Although we are still early in the process, so I suppose things could change.

We should talk about this sometime . . . soon as it may be prove quite helpful.

Before I go (on week 2) we should chat to see what messages I may need to bring with me, in the event I get any questions that need responding.

Thanks! Tami
